Subject: RE: CLCM info and resident notice ...

Thanks for the info Julie ... Walt/Brian, per our conversation yesterday after the meeting ... relative the sampling areas other than on resident property. It was mentioned that a notice would be

given, placed at or near the resident home at which samples would be collected. The notice draft in question will need to be reviewed/edited by one of our editors ... please forward that draft to my attention

for review and editing ... prior to going final, questions please contact me – thank you.

Rafael,

Here's some background info on the site, and the newspaper article is located at:

<http://projects.jsonline.com/news/2017/2/15/chemicals-left-in-barrels-leave-many-at-risk.html>
